

# LIFE CYCLE OF A FROG with **Zayn & Zoey**

Zayn and Zoey stepped out for a stroll amidst a light drizzle at Grandma Grey's farm. They heard a strange croak sound by the pond. It was the frogs! They saw the frogs hopping around and tadpoles floating on the surface of the water. Grandma explained to the kids the life cycle of a frog and how tadpoles grow into frogs!

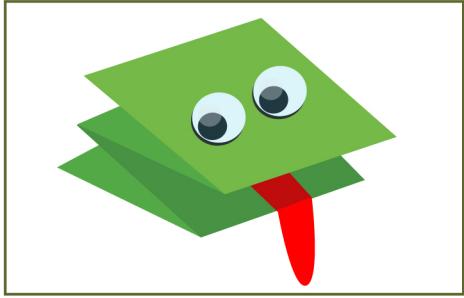

## Let's Chat!

After reading the book, let's discuss the story together and see how much of the book you remember!

- What are the four stages of a frog's life cycle?
- What is a spawn?
- What are baby frogs called?
- What does a tadpole have instead of legs?
- How do tadpoles breathe underwater?
- What does a tadpole eat and where does its food get stored?
- What does a frog eat?
- How long does a young frog take to become an adult frog?
- Which group of animals do frogs belong to?

## HANDS ON FUN!

Here are some fun activities related to the life cycle of a frog to do with children.

### Frog Puppet

Croak, croak goes the frog in the reeds!  
Let's make a simple frog puppet.

#### Things you need:

- Craft sheet – green, red
- Glue
- Scissors
- Googly eyes

#### Steps to follow:

1. Fold the green craft sheet, length wise, into 3 equal parts, forming a long rectangle.

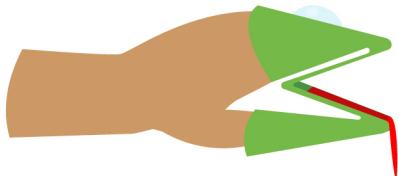

2. Now, fold it width wise into 4 equal parts, making a 'W' shape.

3. Glue googly eyes on the top.

4. Cut out a long tongue from red paper and stick it in the frog's mouth.

5. Put your thumb in the frog's lower jaw and other fingers in the upper jaw.

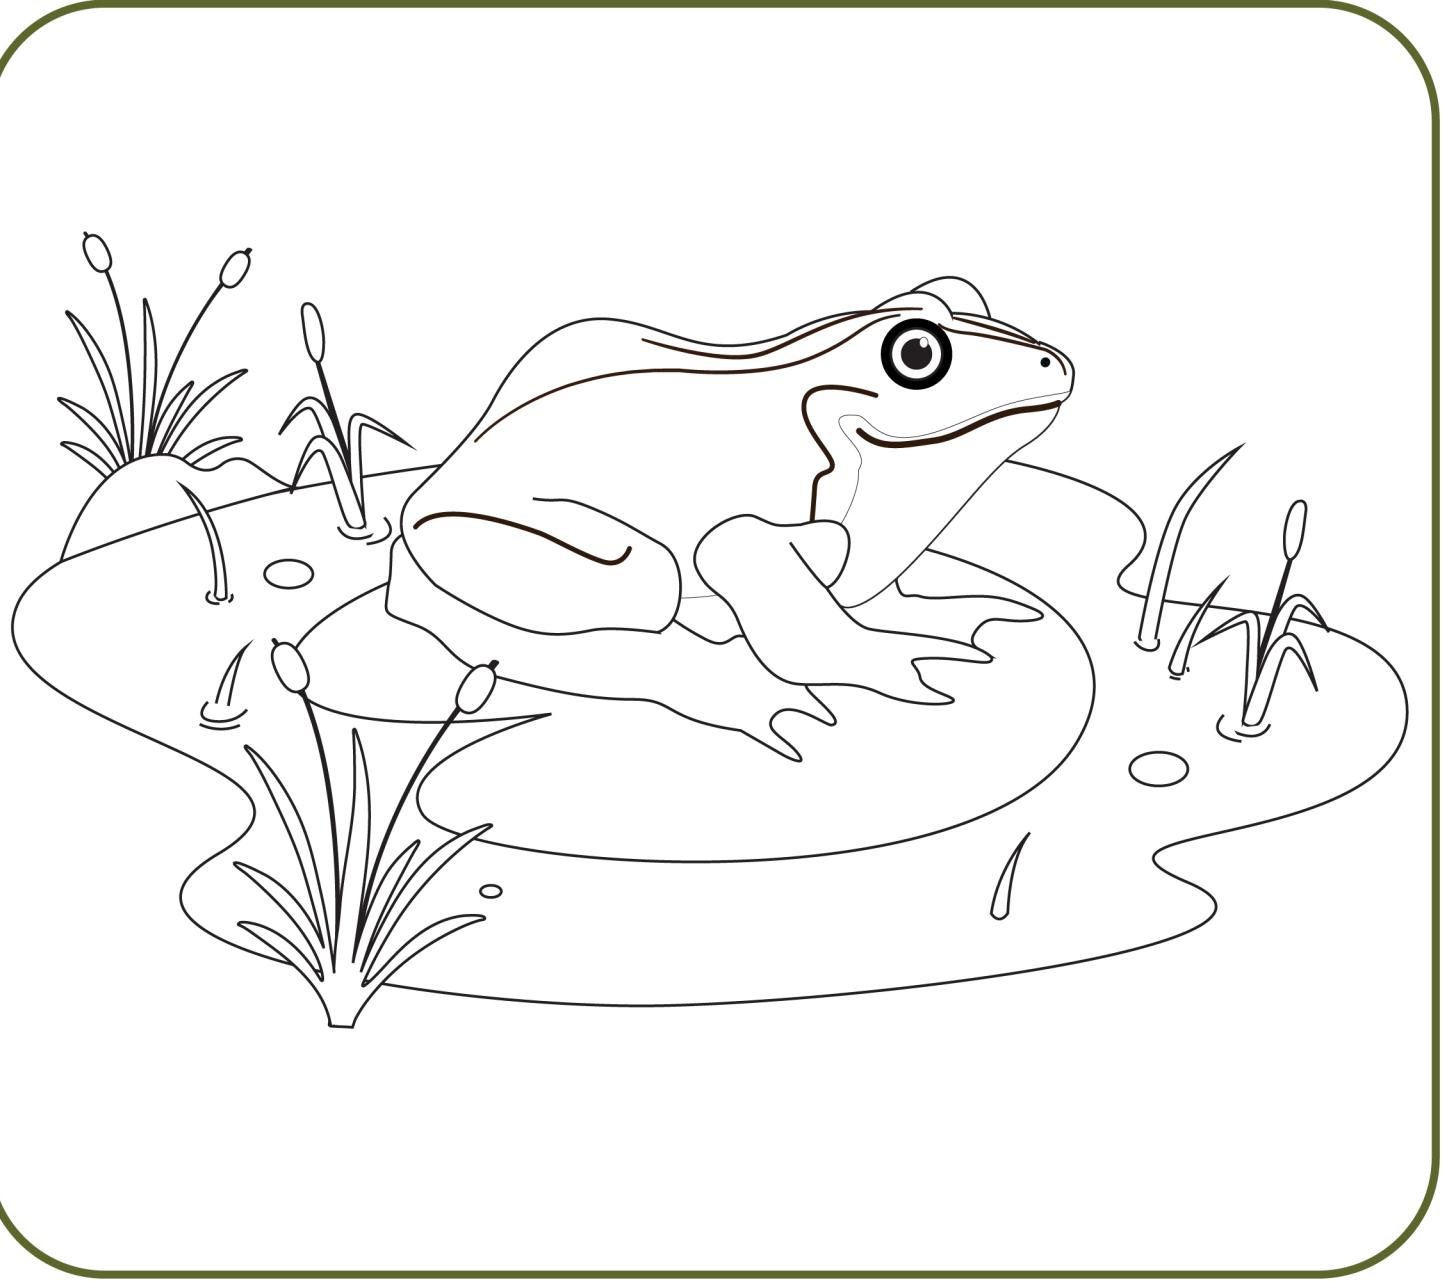

6. Your frog puppet is ready!
