

HOUSES AROUND THE WORLD with Zayn & Zoey

Zayn and Zoey built a play tent in their backyard. The next day, in the school, they told their friends all about it. Miss Tina overheard their conversation and explained to the class about different types of houses around the world. Zayn, Zoey, and their friends learnt about tree house, tent, igloo, houseboat, house on stilts, campervan, adobe, and teepee.

Let's Chat!

After reading the book, let's discuss the story together and see how much of the book you remember!

- What kind of house do you live in?
- What are tree houses made of? Where are they found?
- Which shelter is used during camping?
- Where are igloos found and what are they made of?
- Can you name a house on water?
- Can you name a house that can move on land?
- What is an adobe house made of?
- What is a teepee?
- What is a very tall building called?

HANDS ON FUN!

Here are some fun activities related to Houses Around the World for the children.

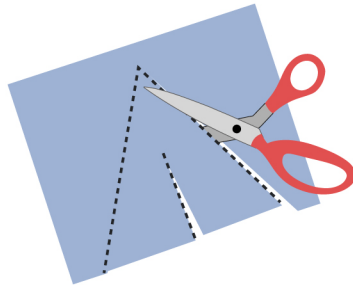

Tent at the Campsite

Camping in a tent is so much fun! Let's make one with paper and create wonderful photo memories!

Things you need:

- One black or grey craft sheet
- One bright coloured craft sheet
- A photograph of yourself
- Scissors
- Glue

Steps to follow:

1. Cut a big triangle from the bright coloured craft sheet. Slit the base in the centre to make an opening in the tent.

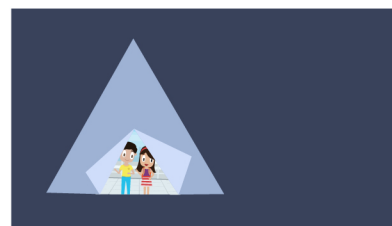

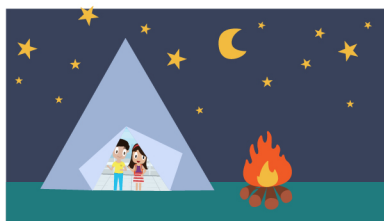

2. Gently, lift the corner of the silts and fold them towards the sides of the tent to create the tent entryway.

3. Stick the tent on the black craft sheet, leaving the entryway open.

4. Stick your photograph in the centre.

5. Create your own surroundings for your campsite!

Your tent is ready!

House of Shapes

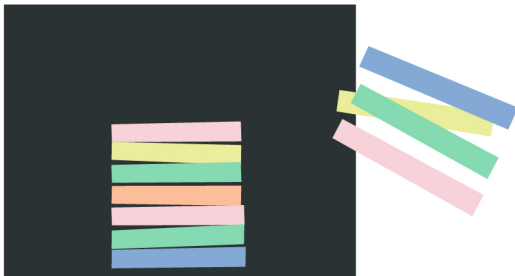

If you look at a house, you will notice that it is made with so many shapes! Let's take some simple shapes and make a lovely house for ourselves!

Things you need:

- Craft sheets in assorted colours
- Scissors
- Glue

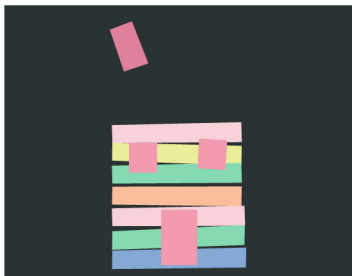

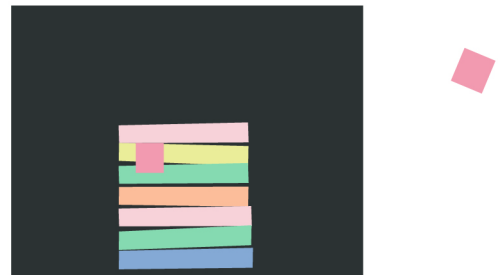

Steps to follow:

Use the different coloured craft sheets to cut:

1. Rectangular strips, about 6 inches long.

2. Two squares for windows.

3. A rectangle for the door and another for the chimney.

4. A large triangle for the roof.

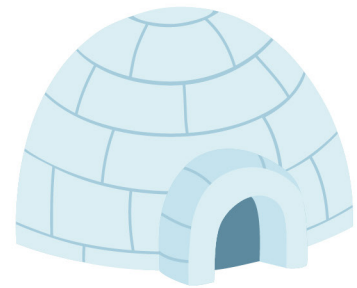

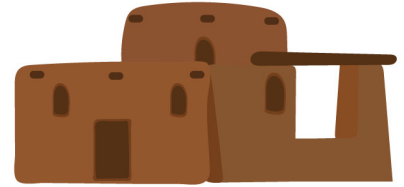

Place the shapes on a base sheet and play around with them to create a unique house of your imagination. Glue them onto the sheet when you're ready.
