

THE WATER CYCLE with Zayn & Zoey

Zayn and Zoey were disappointed that their outdoor trip got cancelled because of rain. However, they enjoyed learning about the water cycle in class. In this book, they learnt about the natural cycle of water, the stages of the water cycle, and the concept of states of matter.

Let's Chat!

After reading the book, let's discuss the story together and see how much of the book you remember!

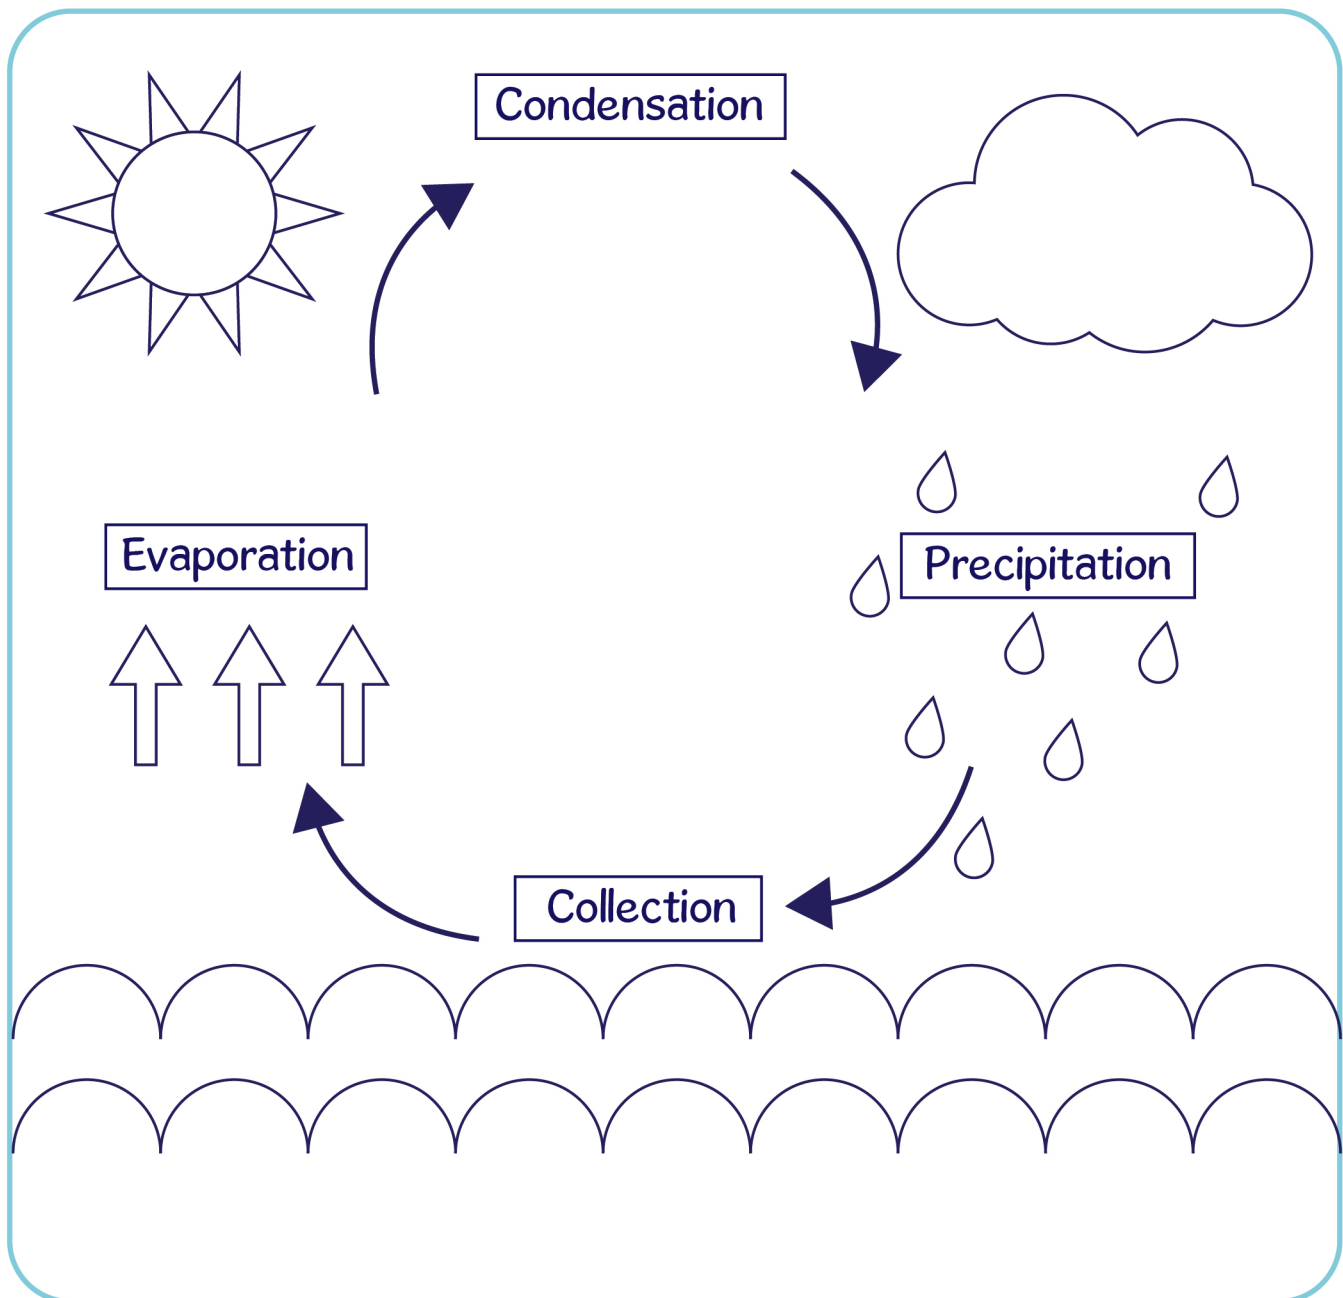

- What is the reason we get rain?
- What causes the water to change its state from liquid to gaseous?
- What is the process of liquid water turning into a gaseous state called?
- When water vapour rises high, what does it cool down and form?
- In the condensation process, what does the water vapour change into?
- When do the clouds start to rain? What is this process called?
- Where does the water that falls on the ground go?
- What does water look like in the solid state?

HANDS ON FUN!

Here are some fun activities related to the Water Cycle to do with children.

The Water Cycle

Colour the picture about the amazing water cycle!

Counting Raindrops

Imprint the right number of raindrops for each cloud with your fingers!

All you need is to print the sheet and blue paint to make the rain drops. Read the number on the clouds and make as many drops!

Rainbow Search!

When raindrops descend and sunbeams shine through them, it makes a rainbow!
How many things are there for each of the seven colours? Count and write.

● Violet ● Indigo ● Blue ● Green

● Yellow ● Orange ● Red
